ABOUT GMAMCO

Established in 1991, Gmamco Contracting LLC is renowned for high quality construction projects across Dubai, backed up with awards for construction excellence and recognition from the Emirates Bank for superior construction standards and ability to fulfill contracts.

Gmamco Contracting's founders have built this company on three lasting principles:

Deliver only the highest quality projects.

Consistently meet project budgets and schedules.

Continually exceed clients expectations of service.

Based on this foundation, Gmamco has been able to meet the needs of clients around the U.A.E, while developing a wide range of project experience including warehouses, mosques, luxury villas and G+1 building. Gmamco adds traditional hands on expertise with the latest construction technology and innovative techniques to exceed the changing needs of its clients. With this blend of tradition and technology, Gmamco Contracting continually delivers quality projects, on time and within budget for its clients.

Teamwork is our key to success

Our staff of trained professionals represents a wide range of education, expertise, and experience in the construction industry. With our in-house divisions for construction, demolition, interior design, fit-out, aluminum, glass and landscaping comprising of over 200 skilled team members including Project Managers, Engineers, Foreman, Steel Fitters, Electricians, Tile Fitters, Plumbers, Painters, Carpenters, Masons, glass & aluminum fitters as well as additional support, Gmamco Contracting works with its clients to establish the details of the project at hand, and to provide all the essential items in creating a quality project. With a co-ordinated team approach we control and monitor all aspects of the job to the satisfaction of our clients and provide them with a high quality outcome.

“Ensuring the best services for our clients, and making sure that our clients are fully satisfied with our final product, giving our production its highest quality and efficiency”

OUR SERVICES

A modern, two-story house with a swimming pool in the foreground. The house has large windows and a balcony. The pool is surrounded by a tiled deck.

CONSTRUCTION

A close-up view of a large glass and aluminium window system. The window is set in a white frame and reflects the surrounding environment.

GLASS &
ALUMINIUM

A modern interior space featuring a white wall, a wooden floor, and two tall, silver, cylindrical vases containing green plants. The scene is brightly lit.

INTERIORS
& FITOUTS

A swimming pool with a wooden deck and two lounge chairs. The pool is surrounded by a lush garden with palm trees and a view of the ocean.

LANDSCAPING

A demolition site featuring a large yellow excavator with a hydraulic breaker attachment. The excavator is positioned over a pile of rubble and debris.

DEMOLITION

BEST QUALITY CONSTRUCTION AT THE RIGHT PRICE

GMAMCO builds luxury villas, G+1 buildings, warehouses, mosques, and related projects in the infrastructure of residential and commercial projects as well as remodeling of residential & commercial spaces. As a result, through our operating companies in many aspects of construction our teams provide a wide range of construction services on both large and small projects.

These construction services will normally include activities like excavation and grading, well pad construction, site development, wet and dry utilities and civil engineering structures, Interior design & Fit-out, Aluminium/Upvc, glass works & landscaping.

We are a true solutions provider capable of taking on the most challenging projects, providing leadership, innovation and expertise and providing high quality, efficient and responsible construction solutions to the markets and customers we serve. Our integration into construction materials also enables us to bring further added value to all the projects we participate in.

CREATIVE FIT OUT INNOVATIONS

Our team oversees every aspect of the fit-out process. From overseeing quality control, timing and OH&S, to liaising with manufacturing, subcontractors and design, GMAMCO exceeds client expectations and deliver residential & commercial fit-outs that are of the highest standard.

We initiate, plan, execute and control the fit-out projects to reach every scheduled timeline and budget expectation. From the first stages of scoping and interior design through to handover, our project management team ensures that your fit-out is hassle-free.

“I live in a landscape, which every single day of my life is enriching.”

Daniel Day-Lewis

Landscaping is an art to dramatically maneuver the natural surroundings of an area into a scenic piece of land and enhance the lifestyle of a person. It includes the perfect combination of plants and flowers, setting of fancy lighting, enhance swimming pools, pavements, patios, decorated walls, waterfalls and much more.

Custom Outdoor Furniture

Your partner in providing complete landscape solution.

LANDSCAPING SOLUTIONS

“A garden should make you feel you’ve entered privileged space -- a place not just set apart but reverberant -- and it seems to me that, to achieve this, the gardener must put some kind of twist on the existing landscape, turn its prose into something nearer poetry.”

The background of the page is a composite image. On the left, there's a view into a glass-walled office space with a desk and chairs. On the right, there's a close-up of a window with white horizontal blinds. A semi-transparent blue vertical bar runs down the center, serving as a background for the text.

Aluminium framed, partitions, windows & doors

Aluminium Curtain wall systems

Frameless glass partitions & doors

Glass Shop fronts

Glass Shower cubical

All type of mirror installation

Back Painted Glass

Automatic sliding & revolving doors

Glass staircase & flooring

Glass Handrails

The aesthetics of glass lends an important element of individuality to every project. The custom look you create truly sets apart the outstanding design from the simply acceptable. GMAMCO set your creative talents free to design unique combinations of patterns, textures and colors.

We look forward to meeting the ever increasing demands of the Architectural and Design Industry. Allow us to work with your imagination. In the design and use of architectural glass, the responsible design professional must consider carefully the performance characteristics of the four basic types of glass and the ir differences as they relate to the various construction requirements.

In addition to annealed float glass there are three other types of glass available: tempered glass, laminated glass, and insulated glass. These glass types can be used individually, or in combinations, for various architectural applications. Each has its own specific properties and performance characteristics that can be related to the requirements established by the design community.

DEMOLITION

Sometimes good things need s to come to an end, and let it build something new again, GMAMCO now offers Demolition services that will make it a painless experience in your demolition process.
